

## Our Clinic Members

GCCN members are as different as the communities they serve. Each varies in scope, service area, business model, and size, but all are aimed at providing care for those in need and relieving some of the pressure on taxpayer-supported healthcare.

We are proud of our members' tireless efforts on behalf of low-income populations and believe that our network is a model of how the private sector can offer healthcare to the uninsured at no/low cost.

## Become a Partner

To become a Georgia Charitable Care Network Hearing Aid Dispatch Program provider, please visit the website and submit the required forms and provider agreement to [hearing@charitablecarenetwork.org](mailto:hearing@charitablecarenetwork.org)

You must also complete and submit an IRS W-9 form and provide a copy of each provider's license and malpractice insurance coverage.

Should you have any questions, please call 1 (888) 551-1231 or email the Hearing Aid Dispatch Director, Shirley Jones Cooper at [scooper@charitablecarenetwork.org](mailto:scooper@charitablecarenetwork.org)

We look forward to a great partnership!

Our commitment is to foster collaborative partnerships to deliver compassionate healthcare to low income Georgians

# Building Partnerships

## Working Together

In 2003, a group of Georgia healthcare leaders founded the Georgia Charitable Care Network – the precursor to the Georgia Charitable Care Network. They envisioned a unified network of state charitable care clinics and other providers who together would be a far stronger and more powerful voice on behalf of Georgia’s low-income and uninsured populations than any single community, clinic, or provider.

We have been educating, advocating, and fundraising on behalf of our clinic members ever since. In 2023, GCCN members provided \$303 million in uncompensated care at an average cost of \$197.70 per patient annually.

About 40% of young adults with hearing loss identified during childhood reported experiencing at least one limitation in daily functioning\*

### Our Hearing Program

In April 2022, the **Georgia Public Service Commission** unanimously awarded the Georgia Charitable Care Network the contract to serve as the new administrator of the Hearing Aid Distribution Program. Funded through the PSC with TRS funds, the program provides hearing aids to low-income Georgia residents. GCCN coordinates the care referrals between the patients, audiologists, hearing aid dispensers, and manufacturers, providing great service to all.

\*CDC study that followed school-aged children identified with hearing loss into young adulthood.
